**RE: School Street Water Main Replacement**

**\*\*Construction Notice/Road Closure\*\***

To Residents, Property Owners, and Businesses of School Street neighborhood,

This letter serves as notice of construction work scheduled for your street for the replacement of a water main. The project will be undertaken by a private construction contractor, Hebert Excavation.

The contractor has requested to close the street to through traffic for a duration approximately of 1 month, from November 14<sup>th</sup>, 2022, through December 16<sup>th</sup>, 2022. The street will be open to traffic at night. Sidewalks will remain open throughout the duration of the construction.

Please see the project location map (on back of this letter) for supplemental information. The proposed road closure will be on the consent agenda for the City Council meeting on November 9<sup>th</sup>, 2022. Anyone with questions or concerns is advised to contact the Public Works office or to attend the City Council meeting.

The street will remain available for local traffic only, such as access to businesses, and to your homes but you should expect periodic obstruction with occasional delays. Obstruction of access to and from your driveway will be unavoidable but typically of short duration which we will try to limit to a maximum of ten minutes. We will provide advance notice for any prolonged delays.

Residents will be notified with a notice 24 hours prior to any planned water shutdowns.

Feel free contact Public Works office at 802-223-9508 and any available staff member can provide additional information or will address requests for special accommodations if needed during the project.

We appreciate your cooperation.

**Landlords, we depend on you to inform your tenants about this upcoming project.**

Sincerely,

Kurt Motyka, P.E.  
Interim Public Works Director
