**Subject:** Application Update

Dear Meredith and members of the Development Review Board,

After careful and deliberate consideration of community feedback, VCFA respectfully requests that our campus development PUD application be withdrawn.

The college and future owners will abide by the underlying zoning regulations and will utilize the conditional use permit process as required.

I want to thank you, the board, and the community for your time and engagement in the process with us. Although the college is withdrawing from the DRB process, our goal is not to end the conversations with the community about our future plans. To that end, we will be holding an open community meeting at VCFA on **Thursday, March 2nd at 7pm** with the team who plans to purchase 3 of our campus buildings to begin that dialogue and provide Montpelier residents with the concrete information they need to help them share our excitement for the future of the campus.

Sincerely,

Katie Gustafson
